The Bridge to Hope is an educational and support program, free of charge, for families and friends whose loved ones are affected by substance abuse.

Weekly support groups are intended for people who have come to the realization that a family member is facing substance abuse.

The Bridge to Hope program is intended to bridge a gap between the realization of the problem and the need for solutions. It is a bridge to finding help and giving support to those who are - directly or indirectly - affected by addiction.

Please join us each Wednesday or Thursday evening. The Bridge to Hope support group is here for you to find *Help*, *Support*, and most important of all . . . to find *Hope*.

No registration. For information call:
