
Senator Jane Clare Orie - Majority Whip Invites You to Attend The Students Together Organizing Prevention Convention

Students Together Organizing Prevention (S.T.O.P.) is the largest and most successful coalition of Schools (urban, suburban, and rural) and organizations to directly address issues facing our youth today. The S.T.O.P. Convention is entirely focused on students and their message to other students about issues such as school violence, drugs, verbal and physical abuse, bullying, sexual harassment, rape, and the dangers of drinking. The overwhelming success of the program is due to the use of peer to peer and not adult to youth messaging, which is more effective in relaying a theme of violence prevention and interaction between urban, suburban and rural schools.
